

CROWN PAVILIONS

The World's Finest
Luxury Gazebos™

For year-round alfresco dining,
lounging & entertaining

The marque of excellence

Welcome

Imagine a space where you can escape from the pressures of life, a beautiful outdoor space where you can unwind and enjoy a drink at the end of a busy day – a gloriously indulgent space that you can truly make your own.

Imagine a space, in the very heart of your garden, where you can entertain friends, serve sumptuous suppers and party long into the night. Or, if you prefer the quieter life, a blissful space where you can relax over breakfast, laze away a summer's afternoon or simply sit back and enjoy a good book.

Why Crown?

When it's something as special as your own personal haven, you want to be certain that your gazebo won't simply look stunning in the spring, summer and autumn months, but that it will also cope with our British winters, enabling year-round use.

Crown Pavilions is the market leader for the simple reason that we overdeliver on quality and service, at every stage of the design and build, so you take possession of the very best money can buy. The Crown Marque of Excellence also ensures that your new gazebo will remain the smart focal point of your garden, year after year, a source of pride when it comes to welcoming guests into your home and where even the fixtures and fittings go way over and above the industry standards in terms of quality and longevity.

“the best that money can buy...”

After looking at numerous Garden Room and luxury wooden gazebo manufacturers on the market we decided to go with Crown Pavilions as their buildings are undoubtedly the best that money can buy and the service level was exceptional.

They exceeded our expectations at every stage. If you are looking for the best garden buildings on the market, then Crown Pavilions is the company to hire!

Why Choose a Crown Smokeless BBQ?

More than just a place to cook

From relaxed family lunches to evenings spent entertaining, the Crown Smokeless BBQ Collection creates a welcoming space where great food and good company come together, whatever the season.

- **Enjoy BBQ cooking all year round** from the comfort of your gazebo, pavilion or garden room.
- Significantly **reduced smoke** compared to traditional charcoal BBQs, creating a cleaner and more comfortable cooking environment.
- Integrated **smoke extraction** draws smoke away from the cooking surface for a more enjoyable cooking and dining experience.
- **No charcoal, gas bottles or open flames** required, simply switch on and start cooking.
- **Six adjustable heat levels** provide precise temperature control for everyday cooking and entertaining.
- **Built-in grease management** helps reduce smoke residue and promotes a cleaner, healthier way to cook.
- **Removable dishwasher-safe stainless steel cooking grills** make cleaning quick and easy.
- Premium materials including **Dark Grey Slate Stone tabletops, stainless steel cooking grills, timber veneer finishes** and **contemporary steel frames**.
- Stylish, contemporary designs created to complement Crown Pavilions' luxury garden buildings.
- Designed to transform your garden building into the ultimate space for cooking, dining and entertaining.

The possibilities are endless with Crown Pavilions – Go Bespoke

The World's Finest Bespoke Garden Buildings

Why Choose a Crown EcoGrid Foundation?

- Lower cost alternative to a concrete base.
- Ecobase creates much less mess in the garden than installing a concrete base – the garden returns to its natural attractive state much more quickly.
- No need to find a local contractor to lay the base as Crown Pavilions in house team will lay it instead.
- Your gazebo can be installed more quickly, as there is no base contractor's lead time nor concrete slab base curing time to factor in.
- By using a 100% recycled and reusable plastic grid system for the base, you are helping the environment.
- Better for the gazebo - the floor bearers of the gazebo are preserved for longer by siting them on Ecobase's honey comb structure on which rainwater cannot puddle (if the concrete base is not installed correctly)
- Encourages the use of a French drain around the perimeter of the building which would reduce unsightly rainwater splashback on the lower timbers of the gazebo.

*Our exclusive offer is for **Crown Pavilions customers only**

Please note that our Eco Grids are only suitable on pre-existing flat and level ground. If your ground is uneven or has a fall in any direction, please either contract a local builder to level and compact the ground or our team can quote to do this as an additional service prior to our Eco Grid team arriving on site to carry out your installation. Please note that if the ground is not level and compact on our arrival we may not be able to carry out the installation and additional charges may be incurred if we need to return at a later stage. Please feel free to contact us if there is any doubt and we would be delighted to assist you further.

Smarter, Greener Foundations for our Luxury Gazebos, Relaxation & Entertaining

Crown Pavilions are proud to introduce their most luxurious solution and offering to complement your gazebo purchase.

We now have a foundation solution that will complement your garden, landscaping and any future plans you may have. A robust, beautiful, natural tanalised redwood timber decked platform, carefully designed to accommodate your chosen pavilion.

Our tanalised redwood decked platforms are meticulously fitted onto our own ground screw foundation (subject to passing our required ground screw test to verify the suitability of the ground) and tanalised joists. As the decking and ground screws are raised off the ground, this will also ensure the longevity of your pavilion. We finish off all timber decked platforms with a neatly constructed timber skirt surround.

We are also excited to extend our offering should you decide to increase the size of your decked platform to be used as an additional area in your garden for relaxing, outdoor furniture, a BBQ, sun loungers or an additional entertaining area. The possibilities are endless and this is a very cost-effective way to create a beautifully landscaped area which looks clean, natural, low maintenance, and multi-purpose. You may also choose to soften the space with plants, mood lighting, and water features to create a truly stunning setting with your Crown Pavilion as the focal point.

Ground Screws with Tanalised Redwood Deck Pricing

All below prices are subject to a site survey and ground screw test which incurs a one off payment of **£460** (inc VAT) to determine ground suitability.

A Greener, Faster Alternative to Concrete

Ground screws are revolutionising how we build. Unlike concrete, they can be installed in minutes, are weather-resistant, and create zero mess. Ideal for garden rooms, gazebos, and other outdoor structures, they offer strength without the environmental compromise.

- 👑 125+ year lifespan
- 👑 Installed in all weather
- 👑 Zero curing time
- 👑 Minimal soil disturbance
- 👑 Reusable and recyclable
- 👑 Lower CO₂ footprint than concrete

Should you want a larger deck than included within the prices stated then please speak to one of our team and we can price accordingly based on the desired m² increase.

Our Showcase Collection

Showrooms

This brochure showcases our beautiful gazebo and hybrid collections but of course there is never any substitute for seeing our garden buildings in person: to feel the comfort of the cushions, take in the natural scent of the timber, run your hand along the smooth contours of the carpentry and appreciate the quality of our craftsmanship first-hand.

A selection of the buildings in this brochure can be viewed in our showrooms along with a selection of our other most popular garden rooms and accessories.

Experienced staff will also be on hand to answer any questions and talk about our designs in more detail
